

dansko®

Fall/Winter 2011

WAY TO GO!

Twenty-some years ago, Peter and I had no idea that we would ever start a shoe company. We simply found ourselves in the path of an unexpected opportunity and seized it.

Knowing nothing about the shoe industry, our frame of reference was entirely from the "receiving end" of the business – how would we want to be treated, both as retailers and as consumers?

Our ignorance of the industry was one of our greatest assets, allowing us to truly put ourselves in our customers' shoes, as we, quite literally, put them in ours.

In honor of our 20th anniversary we would like to take a moment and reflect on what inspires us. Throughout this brochure, in addition to our latest styles, you'll find the words that define our Way of Life here at Dansko.

Enjoy!

Mandy

WORDS WE LIVE BY

DREAM BIG

When I look at Mandy and Peter and the "dream" they had to build a globally-responsible company from a single shoe, it inspires me. I know that I can accomplish whatever I dream too!

Kim B.

LEAVE NO TRACE

For me it's all about caring for our environment and natural surroundings. When I go on a picnic or to a park I am extremely careful not to leave trash or any kind of mess. There should be no evidence that I was there. My goal: nature in its undisturbed form.

Scott R.

PETER'S CORNER

Do No Harm

At Dansko we believe responsible environmentalism is key to doing the right thing as a company. But what is responsible environmentalism? To us it's simple. Start with "do no harm" and end with "leave the planet a better place than you found it".

We try to implement these actions on a daily basis—eliminating waste where we can, recycling everything else and empowering our employees and communities to do the same. Another way we do this is through support of great partners with big picture ideas.

One of these partners is The Conservation Alliance, a group of 175 outdoor companies that joined together to help protect threatened wildlife habitat in North America. In 2011, Conservation Alliance plans to distribute \$1,000,000 in wildlife protection. Now, that's a lot of land that will never see harm.
