Spring/Summer 2012

A FEW OF MY FAVORITE THINGS...

At Dansko our mission is simple. We want to be your favorite— not the only shoes you wear but the ones you love the most. So it's not surprising, I get this question back, a lot: "What is *your* favorite?"

This is not an easy question. It depends on so many things— what I'm doing, what I'm wearing, what mood I'm in— that I really can't say I have just one favorite pair.

I will say, though, that I personally test-drive every women's collection we've ever offered and I do love them all. Let me tell you, there is a lot to love this season.

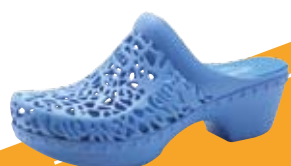

Pippa is so much fun. Pure energy! Mirabel is the perfect spring heel— fresh yet sophisticated. We also have a great new jute wrapped clog, the perfect compliment to a summer wardrobe.

But this is just the beginning. Check out all the wonderful new styles throughout this brochure and pick your new favorite.

“What I LOVE about Spring”

Our Product Development team shares their favorite elements from the new line

“I love the rich leathers, fashion-forward styling and level of detail in every one of these styles.” Jonathon, Designer

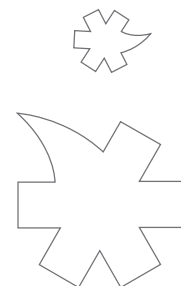

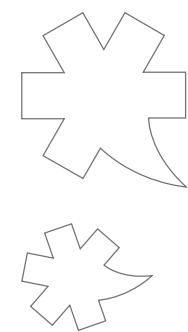

“These materials are so on trend. They are a great addition to your closet because they can be worn so many ways.”

Kelly, Product Line Manager

“Be bold! Saturated color, cheerful prints, and unexpected materials energize Dansko’s spring 2012 line. I love the optimism that runs throughout the collections. Clean, strong shapes and easy, uncomplicated styling complement today’s active lifestyles.”

Ann, Creative Director

“The Photo Real technology is a really cool new direction for Dansko.”

Jonathon

“I love all the colors – I can’t decide which Pippa is my favorite!”

PETER'S CORNER

One of my favorite organizations we partner with here at Dansko is the **Chesapeake Bay Foundation (CBF)**.

The CBF's goal is to protect Chesapeake Bay and all that lives in it. This includes the oyster population which has significantly decreased and is vital to the ecosystem. Every year a team of Dansko employees carools down to the bay and helps CBF build oyster balls which are used to create baby oyster habitats.

Once the babies attach, the balls are dropped onto the floor of the bay where the babies grow to adulthood forming reefs and providing habitat for a wide range of marine plants and animals. In addition, the oysters filter the water by feeding on microscopic plants which improves the quality and clarity of the Bay.

If you are interested in learning more about the CBF or want to get involved with their oyster gardening program please visit cbf.org.
